"He came, but the pope stays at ...e. Long live the king."

The feeling, however, does not in...fere with the Neapolitans' venera... for their saints. A woman in ... crowd before the hotel was heard ...confide in a friend as follows:

"My daughter, who lives at Torre del ...co, is a refugee. She has been ...ceived into the royal palace, lives ... a princess and has been spoken ... by the queen. May the saints pro... ...r her majesty."

The king left Naples early this morn... for San Guiseppe, Ottajano and ...rzigno, in order to ascertain per...nally the exact situation at these ...wns. He hoped to be able to con...ue his journey to Sarano and Cas...llammare. The king inspected all ... This gave rise to many heart-rend...g scenes. As the king bent over a ...or man, with toil-hardened hands, ...hose right leg had been amputated, ...e sufferer replying to his majesty's ...estion regarding his immediate ne...essities, said with tears in his eyes:

The most consoling news this morn...ng is that the lava is cooling on all ...sides. Some extraordinary escapes from death have been recorded. A man and his four children were rescued after having been lost in the ash-covered wilderness for 56 hours. They were terribly exhausted, and were more like five skeletons than humans.

Firemen have been sent from Palermo, Sicily, and other places to the villages in this vicinity, which have suffered the most from the fall of ashes, to assist in removing the ashes from the roofs and relieve the exhausted soldiers.

Camp kitchens have been established at a number of places, and free meals are being distributed wherever possible to those in need of them.

The American steam yacht Nahma, with Mrs. Robert Goelet and a party of friends on board has arrived at Palermo, Sicily. They witnessed the eruption of Mount Vesuvius from Amalfi, on the bay of Salerno, not far from Naples, and gave a vivid description of the scene.

Lost Life in Accident.

Sandiego, Calif., April 13.—Toney Barbarich, an Austrian, lost his life at La Jolla Wednesday in an accident in which for a time the lives of two other men and eight women were imperiled. Barbarich and the party, which was composed of tourists, were in a glass bottomed boat making a trip along the shore. When off Devil's Slide, just as Barbarich was turning the boat, he broke an oar. At the same time a big wave struck the boat, and Barbarich in attempting to hand his other oar to a man in the stern, dropped it into the water. The boat was carried shoreward into the breakers, and Babarich jumped overboard with a rope in the attempt to reach a safe landing and drag the boat away from the rocks. He was dashed upon them and sustained injuries from which he soon died.

Value of Crop Exports.

Washington, April 13.—According to a bulletin issued by the department of commerce and labor, the total value of agricultural products exported from the United States for the eight months of the fiscal year, 1906, ending with February, was $700,000,000, as against $570,000,000 in the same period of 1900, $664,000,000 in 1902, and $568,000,000 in 1905. The growth in the exports of agricultural products says the bulletin occurs in all of the three great groups which form the bulk of agricultural exports, viz., breadstuffs, cotton and provisions, the latter term including meat and dairy products. The gain in breadstuffs was $70,000,000, in provisions, $33,000,000 and in cotton, $30,000,000.

Cashier Gone; Cash Missing.

Leland, Miss., April 13.—Following the disappearance of W. H. Bell, the cashier of the Delta Bank of Leland, and an investigation of the books of the bank by the directors, which, it is alleged, developed that $5,000 of the bank's funds are missing, the doors of that institution were closed Wednesday evening, and Jack Stinson, of Leland, named as assignee. An application for a receiver has been filed. The bank is capitalized at $34,000, and the deposits amount to $25,000.

CASTRO RETIRES; GOMEZ NOW RULES

Temporarily Resigns From Presidency of Venezuela.

WANTS REST IN PRIVATE LIFE

General Gomez, Who Becomes Temporary President, Is an Able Military Man—Aided Castro in His Revolution Against Andrade.

New York, April 13.—General Cypriano Castro has retired temporarily from the presidency of Venezuela.

General Vincente Gomez, first vice president, is the present executive head. This information was contained in an official cable dispatch received Wednesday from Caracas by the Venezuelan consul general in this city.

The official announcement gives as Castro's reason for resigning that "he desires to retire to restful private life for some time, owing to the strenuous work his position exacts, and which he has so successfully carried on for several years."

The change took place on Monday last, when Castro issued a proclamation wherein appeared the following:

"Should his temporary separation bring harmony and good will to the country, he will willingly make his retirement permanent, if necessary."

The dispatch also says that peace is assured in Venezuela, and that the international questions will be either amicably arranged or arbitrated.

Cypriano Castro became president of Venezuela on Oct 28, 1899, having headed a revolution against President Andrade.

General Gomez, who becomes president, temporarily, is known as an able military man. He aided Castro in his revolution against Andrade, and is commander of the Venezuelan army.

Report Is Confirmed.

Washington, April 13.—Senor Carbiras, the Venezuelan charge here, has received a cablegram from Caracas confirmatory of the one received on Wednesday in New York, by the consul general to the effect that President Castro has temporarily resigned his office. Senor Garbrias is of the opinion that the president has decided to make one of his periodical trips to LaVictoria for rest and recuperation after the severe labors of the past winter, but he does not doubt that the retirement is only for the space of a few weeks.

Crowder, I. T., April 13.—Mrs. John Pruitt, wife of a traveling evangelist, while brooding over her husband's continued absence and the hardships she and her children were subjected to, suicided Wednesday by taking carbolic acid. Following the ceremony he took the contents of a bottle supposed to contain arsenic, but medical aid was summoned and his life was saved. The woman and several children have lived in a tent throughout the entire winter.

HORSE STOLEN BY WOMAN.

Mrs. Shepard Was Aided in the Theft by Her Husband.

Columbus, Ga., April 13.—George Shepard, a white man, about 35 years of age, and his wife have been arrested and carried to Greenville, Ga., on a charge of stealing a horse and buggy, having been indicted on that charge by the Meriwether county grand jury at its last session. The circumstances in the case are quite unusual.

On September 16th, last, a well-attired lady appeared at the stables of John Calloway, at Bullochville, Ga., and said she wished to rent a horse and buggy for a couple of hours to take a drive. Such applications are frequently made, and she was given a horse and buggy. When several hours had passed, and she did not return, Mr. Calloway made investigation and discovered that she had been joined on the outskirts of town by a man, and the two had driven off together in the buggy. Mr. Calloway and a friend started in pursuit and the two went as far as Tallassee, Ala., at times the front buggy being only 2 or 3 miles ahead, but the couple finally escaped.

Last Saturday night, Mr. Calloway was informed that they had returned to this section, and were tenants on the place of Doc Willis in this county. With A. H. Thomas, he went there and arrested the couple and has since carried them to Greenville.

It is stated that Shepherd admits the theft. The horse was swapped for another during the couple's travels in Florida, and this was followed by a succession of trades until they had no horse. They swapped the buggy for another buggy and $15, and the buggy thus acquired finally broke down.

It is said that this couple once pushed a baby carriage all the way from Columbus to Talbotton, Ga., along country roads.

Would Not Hold Up Hands.

Dallas, Tex., April 13.—"Not on your life!" was the response made by Dr. J. L. Brooks, of Washington, D. C., when invited late Wednesday night by a highwayman to hold up his hands. Suiting the action to the word, Dr. Brooks knocked down the man and then turned to the man's companion, who was unarmed. The latter ran away. The man with the pistol snapped it twice at Dr. Brooks, and then ran off, too. Dr. Brooks chased them four or five blocks, and then notified the police. Dr. Brooks is a Methodist minister, and is attending the Methodist educational convention of Texas now in session here.

Make Foods Duty Free.

San Francisco, April 13.—The Call says that news has been received that the government of Ecuador has made foods from the United States into Equador duty free for a period of three months, the period beginning about the first of the present month. M. Aristazabel, acting consul from Ecuador, is quoted in regard to the matter, to the effect that while he had heard that the duties had been suspended, and he believed it to be true, he could not make the statement officially.

Choate, of counsel for the company, to the representations made in their behalf by A. D. Juilliard, a trustee of the Mutual. EFFORT IS MADE TO REACH AGREEMENT

And Send Men Back to Work In The Mines.

MINERS INSIST ON 8-HOUR DAY

If Operators Refuse to Entertain Miners' Amendment to Employers' Plan, Negotiations May Be Stopped and a Strike Declared.

New York, April 13.—Another effort was made Wednesday by the subcommittees representing the anthracite coal operators and the mine workers to reach an agreement and send the men back to work.

The miners, who have had under consideration since Tuesday the counter arbitration plan of the operators which provides that the strike commission of 1902 03 take up the dispute so far as it relates to wages and a method for the adjustment of complaints, are ready to submit their answer.

Members of the committee had intimated that they would accept the strike committee if it was permitted to take up all the demands made by the wage workers, some of which they have greatly modified. The miners will insist that the eight-hour work day along with a readjustment of wages and reconstruction of the conciliation board be taken up by the arbitrators. If the operators should refuse to entertain the miners' amendment to the employers' plan and insist that their latest proposition be accepted as submitted, the miners may stop negotiations, call a convention and declare that a strike exists.

Re-Inspection March 22, 1906.

members of the general scale committee, however, believe the dispute will not go so far. As both sides have repeatedly expressed themselves as against a strike, it is felt each side will go a long way before taking the responsibility of a long suspension of mining operations.

The subcommittee had a short session the forenoon to canvass the situation.

Meets Death Under Father's Engine.

Winterville, Ga., April 13.—Alvin Estes, the 10-year-old son of Mr. Taylor Estes, of Smithsonia, has met with a terrible death by being caught under the cow catcher of the engine on the Smithonia railroad. M. Estes is engineer on Hon. J. M. Smith's railroad. He had just returned from a trip to Colbert, and was at Smithonia when the accident occurred. The little fellow was playing around the engine, as he had frequently done before, in some manner he fell and was caught under the cowcatcher before his father knew it. His skull and arm were broken. He only lived a few hours after the accident.

Want People To Elect Senators.

Washington, April 13.—A resolution providing for the election of senators by direct vote of the people has been favorably acted on by the house committee on election of senators and representatives in congress. The resolution, which was introduced by Mr. Morris, of Nebraska, makes the term of members of the house four years, instead of two. Both propositions are to be accomplished by amendments to the constitution. Reasons why the terms of members should be four years are stated to be because no party can inaugurate its policy in two years.

MUSICAL FESTIVAL FOR GAINESVILLE

By Abel's Concert Orchestra and Several Popular Artists.

FIVE BRILLIANT CONCERTS

Consisting of the Finest Popular and Classic Selections Ever Presented in the South—Miss Jessie Freida Till in Recitations and Other Artists.

Through the energy and interest of Dr. Strouse, Gainesville is to have another season of enjoyment that will certainly be appreciated by every lover of music in Gainesville, as well as all music lovers living in this vicinity. It will consist of five grand concerts by the fine orchestra of Prof. Ewald G. Abel of Jacksonville, assisted by Claude Barker, cornet soloist; F. G. Dana, and Edith Floyd Durrance, soprano soloist. Besides these, the little wonder, Jessie Freida Till, the brightest child of her age, will appear in recitations.

These concerts will be given Thursday, Friday and Saturday nights, April 19th, 20th and 21st, with matinees on Friday and Saturday, and as the prices will be within the reach of all, there will no doubt be a large sale of tickets.

It is the intention of Dr. Strouse, in connection with the Chautauqua, to make this musical festival an annual feature for the winter, and the festival will last for one week next year, if the first proves successful.

The price of a ticket admitting one person to the five concerts next week will be $1, and single tickets to one concert will be 25 and 50 cents. In order to make the occasion a success, 500 tickets at one dollar each must be sold, and we think this can be easily done. Tickets will be on sale at Vidal's and Avera's, and must be subscribed for before Wednesday, April 18th. Parties from out of town can address either A. L. Vidal or W. W. Avera, Gainesville, Fla.

The reputation of the Abel orchestra is a sufficient guarantee that the music will be first-class, but we publish a program for the first night to show what can be expected at these high-class concerts:

W. C. T. U. CONVENTION.

Finished Work Yesterday—Proceedings in Sunday's Paper.

The twenty-third annual meeting of the State W. C. T. U., was concluded on Friday morning, and the session was confined to routine work and passing resolutions, which will appear in The Sun of Sunday morning.

The ladies were highly pleased with their stay in the city, and they were profuse in their thanks, which will appear on Sunday.

Convention Notes.

Owing to an oversight the last musical number on the program, Thursday night, a piano solo by Little Eva Futch, failed to get a mention in The Sun next morning. But the little lady did herself proud and deserves mention, and Gainesville has reason to feel proud of its young musicians.

The "Contest Song," sung by 27 of the Gainesville school girls, was voted a great success, and their leader feels proud of them; but doesn't feel like claiming much credit, as her part was made very light with their ready obedience to her slightest wish and the very efficient help of her accompanist, Miss Ruby DeLand.

In the list of officers the name of the president should have been "Miss Minnie E. Neal of DeLand," instead of Mrs. Forkam, as printed Friday morning.

A Coming Examination.

The postoffice authorities have received information that, on May 5, there will be conducted in Gainesville an examination for clerks and carriers positions in the Gainesville postoffice. Particulars may be secured from Postmaster Almon.

QUEER OLD RUSSIA.

The Firing of Moscow in the Time of Ivan the Terrible.

One who traveled through Russia in 1608 wrote in Latin an interesting account of what he saw. This was afterward translated into English in part as follows: "The Muscovites are generally of a very strong constitution, both very tall and bulky. Above one-half of the year is taken up with their fasts, when the common people feed upon nothing else but cabbage and cucumbers, and these raw, only pickled." The writer, Henry William Ludolf, has leanings toward vegetarianism, for he added, "This is an evident sign of their natural vigor, though it must also be allowed that they promote the digestion by the brandy and leeks which they use in large quantities, and questionless correct the viscous humors arising in the stomach by such indigestible nourishments."

Giles Fletcher, an English traveler, saw Moscow fired by an army of Tartars in 1571 in the absence of Czar Ivan the Terrible. He writes, "There was nothing but whirlwinds and such a noise as though the heavens would have fallen." According to Fletcher, numerous persons were burned to death, while crowds struggling to escape from the flames met, and the ensuing crush resulted in thousands of fatalities.

He asserts that "there perished at that time by the fire and the press the number of 800,000 people or more." This estimate, of course, was excessive. As a means of getting rid of the dead bodies, says Fletcher, the Czar Ivan ordered them on his return to be thrown into the Moskva, and the corpses dammed the deep and rapid river and caused it to overflow its banks.

Mexico's Fans.

In Mexico fans were used long before the conquest, and when Montezuma heard that the Spaniards had landed and were about to visit him he sent for goldsmiths and lapidaries and ordered, among other gifts which were to be offered to Cortes, two feather fans ornamented with a sun and moon of highly polished gold. Like the Japanese and other ancient nations, the Aztecs evidently considered the fan an emblem of authority, for they generally placed it in the hands of Quetzalcoatl, god of paradise, and of Totec, the military disciple of Quetzalcohuatl.

Weighing the Anchor.

A young lady, who had no knowledge of nautical phrases, asked a friend, "Do you know, I often wonder why a ship has to weigh its anchor every time it leaves port?" The answer of her friend was not illuminating—"Well—er—the weight is constantly changing, you know, because of the—er—binnacles and things that accumulate on the anchor!"—London News.

His Jubilee.

Judge—Are you aware of any mitigating circumstances in your case? **Prisoner**—Yes, your honor. This is the fiftieth time I have been here for vagrancy, and I thought that perhaps we might get up a small jubilee.

GOOD MUSIC.

It Is Often a Tonic and Always a Character Builder.

Good music is a powerful tonic to many people, especially those suffering from melancholia. It lifts them out of their solemn moods, dispels gloom and despondency, kills discouraged feelings and gives new hope, new life and new vigor. It seems to put a great many people into proper tune. It gives them the keynote of truth and beauty, strikes the chords of harmony, dispels discord from the life, scatters clouds and brings sunshine.

All good music is a character builder because its constant suggestion of harmony, order and beauty puts the mind into a normal attitude. Music clears the cobwebs out of many minds, so that they can think better, act better and live better. Some writers are dependent upon music for their inspiration and their moods. Somehow it brings the muse to them. It adds brilliancy to the brain and facility to the pen, which they cannot seem to get in any other way.

Good music seems to give us a touch of the divine and to put us in contact with divinity. It drives out evil thoughts, making us ashamed of them. It lifts us above petty annoyances and little worries of life and gives us a glimpse of the ideal which the actual is constantly obscuring.—Success.

Eating by Law.

"While in Berlin one hot day," said a traveler, "I stepped into a combination beer garden and restaurant and ordered a glass of beer and some fruit. The waiter shook his head.

"'You won't get fruit and beer together in Berlin, herr,' he said.

"'Why not?' said I.

"'It is against the law,' the waiter replied. 'There is a law here in Germany that no one is to be served beer and fruit together. If a restaurateur breaks this law he loses his license. It is a good law,' the waiter added. 'It is based on good sound sense. Beer and fruit don't mix. They are bad for the stomach. Sometimes they cause death.'

"Since that time," the tourist ended, "I have never mixed beer and fruit. It is a strange idea, isn't it, to have food laws like that? Suppose congress should pass a law forbidding the eating at the same meal of ice cream and lobster or mince pie and plum pudding. What a howl would go up, eh?"—New York Press.

Sponge Fishing.

The Greeks are considered the principal sponge fishers, and it takes much experience, skill and hardihood to qualify a man for a first class place among sponge divers. Many of the most valuable specimens are found at a depth varying from ten to thirty-five fathoms. To aid in the descent the divers make use of a triangular stone with a hole in one corner, through which a rope is spliced. On reaching the deep sea gardens, where the rock ledges are clothed with marine growths, the diver, retaining a hold on his rope, dexterously breaks away the holdfast of the sponges and places them under his arm until a sufficient load has been gleaned, when a pull on the rope signals his companions above that he is ready to ascend, and he is then hauled to the surface, bearing his ocean treasures.

To Clean Leather.

To clean leather mix together half a pound each of French chalk and fuller's earth, two ounces of powdered starch and one ounce of yellow ocher. Wet this with boiling water enough to make a thin paste and add one tablespoonful of sweet oil. When cold spread on the soiled leather, let it remain until dry and brush off. Wipe off every particle of the cleaning material and polish the leather with wax melted with turpentine, four ounces of wax and a gill of turpentine. If you wish to darken the leather, add a little oil to the wax preparation.

Swallowed Her Dead Husband.

The only case on record of a disconsolate widow swallowing the remains of her dead husband is that of Artemesia drinking a glass of wine in which the ashes of Mausolus had been stirred for that purpose. The parties to this remarkable transaction were brother and sister and also husband and wife. Mausolus was king of Caria and reigned about 300 years before Christ. After his death his remains were burned and the ashes disposed of as related.

Thin Hair

Yes! We had noticed that your hair was looking pretty thin, and that it lacked luster and life. But we didn't like to speak of it! Of course you know that Ayer's Hair Vigor is a regular hair-grower, makes the hair soft and smooth, gives it life and strength. This isn't the kind of hair that falls out! And, too, it keeps the scalp so clean and healthy.

THE VEGETABLE MOVEMENT.

Continues Heavy from This Section, Especially the G. & G.

The movement of vegetables from section, especially from points the Gainesville and Gulf Railad, continues to be heavy, with the ult that the trains are busy.

A grower from one of the sections on Gainesville and Gulf was in the Friday, and stated that cabbage, ttuce and beans were being shipped large quantities, and were bringing od prices in the markets of the rth. Cucumbers are coming along ckly, and will be moving in a few ys. This grower states that the cucumber crop in the section traversed by the Gainesville and Gulf will be the largest for several years, and the crop promises to be much finer in quality as a rule. "The truckers are making a study of vegetables," he said, "and the business is now really almost reduced to a profession. I look for the time when trucking will be made a profession, and the fellow who studies and learns the conditions will be the fellow who harvests the good 'stuff' and makes the profit."

The movement of cabbage, lettuce and beans is also good from McIntosh, Evinston and other points on the Atlantic Coast Line between Rochelle and Ocala.

PROMISCUOUS SHOOTING.

Complaints Are Being Made by Citizens of Northwest Gainesville.

The citizens of Northwest Gainesville are complaining of the excessive discharge of firearms in that section, and state that it is really unsafe to occupy a position on the piazzas after dark. One resident of the neighborhood declared Friday that he heard no less than a dozen shots on Thursday night. He desired to sit on his front piazza and enjoy an evening smoke, but dared not do so for the jeopardy at which he would be placed.

This promiscuous shooting should be stopped, for it not only endangers the lives of those around, but keeps the nerves of our people in somewhat of an unsettled condition.

ANNIE MAY ABBOTT.

Original and Only Little Georgia Magnet, at the Opera House.

The wonderful and only Annie May Abbott, known as the Little Georgia Magnet, will give one of her wonderful entertainments at the opera house, Wednesday night, April 18th, and those who have never witnessed her marvelous performance should not fail to be present.

She is possessed of a magnetic power which cannot be solved, lifting ten men with ease, yet ten men cannot lift her. She has appeared in every country on the globe and none are able to solve the mystery.

Don't forget the date—Wednesday night, April 18th.

The State Federation.

Through the courtesy of Mrs. N. D. Phillips it is learned that the meeting of the Florida Federation of Womaa's Clubs at Tampa last week was a most interesting occasion, and the delegates from the Twentieth Century Club of this city are highly pleased with the work done, as well as the hospitality shown on the part of the ladies of Tampa.

The dominant feature of the whole convention was a high and fixed purpose on the part of those assembled, and many topics of vital importance were ably discussed, and while many of the clubs are strictly literary in their work, a number of them have taken up city improvements, household economies, charities, etc.

WINDSOR NEWS.

Sea Monster in Newman Lake—Real Estate Deal—Orange Prospects.

Windsor, April 12.—Early corn is looking fine in this neighborhood.

The cold winds and dry weather are against the early cotton.

The county surveyor paid Windsor a visit this week. There was quite an important real estate transfer in Windsor recently, whereby Maj. W. R. Thomas of Gainesville acquired title to several hundred acres of land in and around here.

The orange trees are looking fine, and Windsor will have several hundred boxes of oranges this fall, if nothing unforeseen happens.

Fishermen report fish biting rapidly in the lake, and judging by the size of the strings they bring up this is no fish story.

Last winter two of our winter tourists while fishing on the lake were startled to see a monster some twenty or thirty feet long, and traveling through the water at a tremendous velocity. They were so startled they hardly knew what to do, and were rather reluctant to say much about it when they got up town. Inquiry developed the fact that the same creature had been seen several times before. Dr. Walker of Windsor, in company with Prof. P. A. Hill and his son, C. W. Walker, once saw the same animal.

W. H. Byler has three large Japanese loquat trees, from which he has sold several bushels of fruit this spring.

G. W. Howells has put a new fence around his place and made other extensive repairs.

Last week the building known as "The Hall" was sold by Dr. J. L. Kelley to W. R. Thomas.

C. Ford has recently put a new roof on his dwelling.

E. T. Fenklea has made improvements on his dwelling.

The mother is prostrated with grief. The child was playing in the yard, and ran directly between her mother and the low fence just as the woman pressed the trigger. Realizing the danger to the little one, the mother screamed just as the weapon exploded, but she did not have time to raise the muzzle.

The honeymoon was over, and the husband, returning from business, was grieved to find his little wife crying bitterly. "Oh, George," she sobbed, "such a dreadful thing has happened. I had made you a beautiful pie all myself, and Fido went and ate it!" "Well, never mind, my dear," he said cheerfully, "we can easily buy another dog." Birmingham Post.

Success in Business.

There are 1,841 delegates attending the Indiana Republican State Convention at Indianapolis.

A safe Fourth of July is being agitated by numerous papers. We have the horseless carriage, which is as dangerous as one with four wild horses attached, and now we will be no better off unless they are ordered off the streets when the people begin to parade.

Numerously signed petitions are being sent in to the Hon. Frank Adams by voters of Hamilton county praying him to consent to represent them again in the Senate. Two Senatorial candidates in that county have withdrawn from the race to make room for the honorable Frank, all of which goes to prove his great political work.—Madison New Enterprise.

The Pensacola Journal's special Panama Canal edition, just received, is a very interesting number, and contains many facts and figures regarding the Deep Water City. The city is shown up with many handsome half-tone cuts of the residence and business portion, and the shipping and fish industries are important features. It is a work that reflects credit on its promoter, Editor Frank L. Mayes of The Journal.

The new battleship, which is to cost ten million and be twice as large as the Texas, will have her hands full if she beats the record of the old Texas me a fighter. Although the latter was said to be a cripple when she was engaged with Cervera's fleet at San Diego, she beat some of the others and did the most effective fighting—which was no doubt attributable to the men behind the guns, the stickers and also the good captain

A PUBLIC HALL NEEDED.

Gainesville is in need of a public hall or an opera house to accommodate the conventions and other large gatherings of people who meet in this city every year. During the past few weeks we have entertained half a dozen conventions, grand lodges, etc., and they have to go to the high school auditorium, court house, or some other place, not so central and convenient as an opera house or public hall erected with a view to entertaining such gatherings would be.

An opera house would not be such a paying investment, but it could be placed in a block so as to be in connection with other rooms that would make the whole a profitable enterprise.

CLEAN UP.

A brief note in The Sun a few days ago stated that there were some loud-smelling places about the city that were sadly in need of renovating. They are still to be found and nothing has been done to remove the unholy smell.

There is no excuse for such carelessness, and if these places were cleaned and kept clean, we would have as healthy a city as we did last summer, and last summer some of our city doctors were heard to remark that the city was "distressingly healthly."

There is no healthier location than Gainesville, and if the people only do their share we need have no fear of any epidemic interferring with our health and happiness. Clean up.

"Men and Gods" is the name of the new publication issued by the Williams Publishing House, Seabreeze, Florida. It is of the mental science school, of which we have heard so much of late. Mental science is all right, if you can master it; but if it gets the controlling interest in physical and mental construction, you are generally not good for anything else. Christian science is more malignant than the mental sort, as Mark Twain has said that the "mental scientists have lucid intervals," but if it once tackles the summit of your anatomy you can never throw off the attack until it saturates your entire being. They claim that a man has a sense of infinity, but it would seem to the casual observer that these people lose all their senses and try to exist on science.

The tea farm at Somerville, S. C., the only one of its kind in the Western hemisphere, is able this year to send 12,000 pounds of tea to market. With the kindly assistance of the Government of the United States this farm has grown to a point where it can offer serious competition with the best grades of tea shipped from China, India, Formosa or Java. But, above all, it has been demonstrated that, barring the question of labor, the finest tea can be successfully grown in this country, and there is nothing that gladdens the heart of an American more than the discovery that he can enter into competition in a field hitherto denied him.

The Jacksonville Metropolis urges the people of Duval county to support Hon. H. H. Buckman for State Senator from that county for the following reasons: He is the author of the Buckman bill. That bill saves the taxpayers of the State $300,000 annually; it consolidated the educational interests, it created a university and a female college; it strengthened and helped the common schools; the educational system created by this bill is now in successful operation. Dissatisfied counties are now advocating its repeal; we must send Mr. Buckman back to protect this measure. Our interests demand it.

The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages, and that is catarrh. Hall's Catarrh Cure is the only positive cure now known to the medical fraternity. Catarrh being a constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in the curative powers that they offer One Hundred Dollars for any case that it fails to cure. Send for list of testimonials.

Mountrie, Ga., April 13.—After remaining out an hour and twenty minutes, the jury in the Nelse Conger case returned a verdict of not guilty. Several hundred people had remained up to hear the verdict, and when it was announced the officers had difficulty in preserving order. The friends of Conger gathered around him, and gave him a great ovation. Such a scene was never witnessed here before.

Bank Sued by Shropshire.

Rome, Ga., April 13.—Clyde Shropshire makes the following statement in regard to the charge of forgery made by the Fayette National bank, of Lexington, Ky.: "The charge made by the bank here against me was preposterous and cruel, and was promptly and unanimously dismissed by the grand jury and the court upon investigation. The bank now sues on a civil action to recover the amount of the note, and I, in turn, have sued the bank for $100,000 damages." The friends for Mr. Shropshire, in Georgia, will be glad to hear of his acquittal of the charge against him, and will await with interest the result of his suit against the Fayette National bank.

Robbed Car of Whiskey.

Meridian, Miss., April 13.—Oliver Bland, a negro, is shot and seriously wounded and Buster Brown and Bi Highfod, both colored, and Engineer Johnson, all of the Frisco railroad, are in jail charged with burglary and larceny, it being claimed that these men broke into and robbed a tightly sealed Chicago, Burlington and Quincy car of whisky, gin, beer, champagne, coffee and other things. Johnson is said to have been intoxicated when he was led into the trouble. Bland attempted to escape and made a determined fight with the officers, two shots being fired into him before he could use his own weapon. The arrests have caused a sensation.

Cured Hemorrhages of the Lungs.

"Several years since my lungs were so badly affected that I had many hemorrhages," writes A. M. Ake of Wood, Ind. "I took treatment with several physicians without any benefit. I then started to take Foley's Honey and Tar, and my lungs are now as sound as a bullet. I recommend it in advanced stages of lung trouble." Foley's Honey and Tar stops the cough and heals the lungs, and prevents serious results from a cold. Refuse substitutes. J. W. McCollum & Co.

Bailey Goes to Grave.

New York, April 13.—James Bailey died at his home in Mount Vernon Wednesday from erysipelas. He was 59 years of age. Mr. Bailey's name is familiar throughout America and Europe as a showman and in his later years he was managing director of the Barnum and Bailey show. Practically his whole life was spent in the circus business as employe and proprietor. He joined P. T. Barnum in 1881 and since that time most of the big circuses of the country have been consolidated with him as director.

Ballard's Horehound Syrup

Immediately relieves hoarse, croupy coughs; oppressed, rattling, rasping and difficult breathing. Henry C. Stearns, Druggist, Shullsburg, Wis., writes May 20, 1902: "I have been selling Ballard's Horehound Syrup for two years, and have never had a preparation that has given better satisfaction. I notice that when I sell a bottle they come back for more. I can honestly recommend it." 25c, 50c and $1. Sold by W. M. Johnson.

17 TUNNELS ARE ON THIS ROAD

Remarkable Engineering on the New North Carolina Railway.

Raleigh, N. C., April 13.—The surveying corps of the South and Western railway is now in the counties of Rutherford and McDowell, locating the route, and there will be some remarkable engineering. The road is now under construction from the coal fields of West Virginia and Kentucky, and three thousand laborers, in fourteen camps, are at work between Spruce Pine in Mitchell county and a point near Marion in McDowell county.

It will require five tunnels to get the road through the Blue Ridge mountains, the longest of these being a half mile.

A great amount of the best machinery is being used on the 17 tunnels which wil be on the line.

There will not be a trestle on the line.

The road will, after crossing the Seaboard Air Line at Rutherford, the present western terminus of that system in North Carolina, go on to Spartanburg, or Clinton, N. C.

The coast of the construction in the Blue Rridge, section will be some $200,000 a mile. It is stated by the chief engineer that in thirteen months the road can be completed to Spartanburg.

The Richest Man in the World

The richest man in the world cannot have his kidneys replaced nor live without them, so it is important not to neglect these organs. If Foley's Kidney Cure is taken at the first sign of danger the symptoms will disappear and your health will be restored, as it strengthens and builds up these organs as nothing else will. Oscar Bowman, Lebannon, Ky., writes: "I have used Foley's Kidney Cure and take great pleasure in stating it cured me permanently of kidney disease, which certainly would have cost me my life." J. W. McCollum & Co.

Quellenstein Stirs Jelks.

Montgomery, Ala., April 12.—It having been reported to Governor Jelks that a German colony at Ritterfield needed help, he called up President Rider, of Big mills there. Mr. Rider said that they were brought there for work in turpentine forests and did not like the service; they refused work at the said mills for $1.25 a day. The governor will try to get them more satisfactorily located. Attention was called to the situation by the German consul at Atlanta.

The Original.

Foley & Co., Chicago, originated Honey and Tar as a throat and lung remedy, and on account of the great merit and popularity of Foley's Honey and Tar many imitations are offered for the genuine. These worthless imitations have similar sounding names. Beware of them. The genuine Foley's Honey and Tar is in a yellow package. Ask for it and refuse any substitute. It is the best remedy for coughs and colds. J. W. McCollum & Co.

Dowie Upsets Plans.

Chicago, April 13.—John Alexander Dowie Thursday upset the plans for a peaceable adjustment of his troubles with Zion church, as announced Wednesday night. He directed his attendants to announce to all inquirers that the report that he was about to compromise with Overseer Vollva and his followers was untrue. He said that he would conduct a legal contest in the courts and get his property back.

A Dandy For Burns.

Dr. Bergin, Pana, Ill., writes: "I have used Ballard's Snow Liniment; always recommend it to my friends, as I am confident there is no better made. 'It is a dandy for burns.' Those who live on farms are especially liable to many accidental cuts, burns, bruises, which heal rapidly when Ballard's Snow Liniment is applied. It should always be kept in the house for cases of emergency." 25c, 50c and $1. Sold by W. M. Johnson.

Inspecting "Short Line."

Delaware, O., April 13.—President Johnson and a car of the Norfolk and Western officials passed through this city Thursday on an inspection tour of the "short line from Columbus to Sandusky," owned by the Pennsylvania people. It is reported here that the officials are contemplating purchasing the line, but President Johnson declined to talk of the rumor.

Cures Coughs and Colds.

Mrs. C. Peterson, 625 Lake St., Topeka, Kans., says: "Of all cough remedies Ballard's Horehound Syrup is my favorite. It has done, and will do all that is claimed for it—to speedily cure all coughs and colds—and is so sweet and pleasant to the taste." Sold by W. M. Johnson.

There are 1,841 delegates attending the Indiana Republican State Convention at Indianapolis.

In some localities it is a hard matter to find mud to sling, but some alleged politicians will have it.

The elements seem to favor Aeronaut Hamilton at Atlantic-Pablo Beach and swept his aeroplane into the sea.

The Lincoln, Neb., ball team is called the "Bryanites," in spite of the fact that the city is Republican. You can't keep a good man down.

It is reported that James Whitcomb Riley is to erect a retreat for "unappreciated poets." He may have to fence in the whole State of Indiana.

A man jumped from the Williamsburg bridge into East river the other day with suicidal intent, but will live to exhibit himself in the dime museums of New York. He jumped into notoriety.

A safe Fourth of July is being agitated by numerous papers. We have the horseless carriage, which is as dangerous as one with four wild horses attached, and now we will be no better off unless they are ordered off the streets when the people begin to parade.

Numerously signed petitions are being sent in to the Hon. Frank Adams by voters of Hamilton county praying him to consent to represent them again in the Senate. Two Senatorial candidates in that county have withdrawn from the race to make room for the honorable Frank, all of which goes to prove his great political work.—Madison New Enterprise.

The Pensacola Journal's special Panama Canal edition, just received, is a very interesting number, and contains many facts and figures regarding the Deep Water City. The city is shown up with many handsome half-tone cuts of the residence and business portion, and the shipping and fish industries are important features. It is a work that reflects credit on its promoter, Editor Frank L. Mayes of The Journal.

The new battleship, which is to cost ten million and be twice as large as the Texas, will have her hands full if she beats the record of the old Texas as a fighter. Although the latter was said to be a cripple when she was engaged with Cervera's fleet at San Diego, she beat some of the others and did the most effective fighting—which was no doubt attributable to the men behind the guns, the stokers and also the good captain

A PUBLIC HALL NEEDED.

Gainesville is in need of a public hall or an opera house to accommodate the conventions and other large gatherings of people who meet in this city every year. During the past few weeks we have entertained half a dozen conventions, grand lodges, etc., and they have to go to the high school auditorium, court house, or some other place, not so central and convenient as an opera house or public hall erected with a view to entertaining such gatherings would be.

An opera house would not be such a paying investment, but it could be placed in a block so as to be in connection with other rooms that would make the whole a profitable enterprise.

CLEAN UP.

A brief note in The Sun a few days ago stated that there were some loud-smelling places about the city that were sadly in need of renovating. They are still to be found and nothing has been done to remove the unholy smell.

There is no excuse for such carelessness, and if these places were cleaned and kept clean, we would have as healthy a city as we did last summer, and last summer some of our city doctors were heard to remark that the city was "distressingly healthly."

There is no healthier location than Gainesville, and if the people only do their share we need have no fear of any epidemic interferring with our health and happiness. Clean up.

"Men and Gods" is the name of the new publication issued by the Williams Publishing House, Seabreeze, Florida. It is of the mental science school, of which we have heard so much of late. Mental science is all right, if you can master it; but if it gets the controlling interest in physical and mental construction, you are generally not good for anything else. Christian science is more malignant than the mental sort, as Mark Twain has said that the "mental scientists have lucid intervals," but if it once tackles the summit of your anatomy you can never throw off the attack until it saturates your entire being. They claim that a man has a sense of infinity, but it would seem to the casual observer that these people lose all their senses and try to exist on science.

The tea farm at Somerville, S. C., the only one of its kind in the Western hemisphere, is able this year to send 12,000 pounds of tea to market. With the kindly assistance of the Government of the United States this farm has grown to a point where it can offer serious competition with the best grades of tea shipped from China, India, Formosa or Java. But, above all, it has been demonstrated that, barring the question of labor, the finest tea can be successfully grown in this country, and there is nothing that gladdens the heart of an American more than the discovery that he can enter into competition in a field hitherto denied him.

The Jacksonville Metropolis urges the people of Duval county to support Hon. H. H. Buckman for State Senator from that county for the following reasons: He is the author of the Buckman bill. That bill saves the taxpayers of the State $300,000 annually; it consolidated the educational interests, it created a university and a female college; it strengthened and helped the common schools; the educational system created by this bill is now in successful operation. Dissatisfied counties are now advocating its repeal; we must send Mr. Buckman back to protect this measure. Our interests demand it.

The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages, and that is catarrh. Hall's Catarrh Cure is the only positive cure now known to the medical fraternity. Catarrh being a constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in the curative powers that they offer One Hundred Dollars for any case that it fails to cure. Send for list of testimonials.

New Depot for Gainesville.

Gainesville, Ga., April 13.—Mrs. McManus, general freight agent of the Southern railway, with headquarters in Atlanta, was here a few days ago, in conference with Mayor Mitchell about a new passenger depot for Gainesville. Mr. McManus promised Mr. Mitchell that the Southern would erect a new depot here, and agreed to furnish transportation to the mayor and council to Greenville, S. C., to inspect the depot there, after which it is proposed to model the depot for this city.

Nelse Conger Is Acquitted.

Mountrie, Ga., April 13.—After remaining out an hour and twenty minutes, the jury in the Nelse Conger case returned a verdict of not guilty. Several hundred people had remained up to hear the verdict, and when it was announced the officers had difficulty in preserving order. The friends of Conger gathered around him, and gave him a great ovation. Such a scene was never witnessed here before.

The men were held without bail at a preliminary hearing in Marianna for the murder of Judge J. M. Christmas, wife and son in February last. Judge Carter granted bail to Holland and Justice in the sums of $1,500 and $1,000, respectively, but refused bail to Christmas, against whom the most damaging evidence was adduced at the hearing. Attorney Price of Marianna, who made the application in behalf of the prisoners, then made application for a writ of habeas corpus in the case of Christmas, argument on which will be heard at Pensacola in the course of the next ten days.

Bank Sued by Shropshire.

Rome, Ga., April 13.—Clyde Shropshire makes the following statement in regard to the charge of forgery made by the Fayette National bank, of Lexington, Ky.: "The charge made by the bank here against me was preposterous and cruel, and was promptly and unanimously dismissed by the grand jury and the court upon investigation. The bank now sues on a civil action to recover the amount of the note, and I, in turn, have sued the bank for $100,000 damages." The friends for Mr. Shropshire, in Georgia, will be glad to hear of his acquittal of the charge against him, and will await with interest the result of his suit against the Fayette National bank.

Robbed Car of Whiskey.

Meridian, Miss., April 13.—Oliver Bland, a negro, is shot and seriously wounded and Buster Brown and Bi Highford, both colored, and Engineer Johnson, all of the Frisco railroad, are in jail charged with burglary and larceny, it being claimed that these men broke into and robbed a tightly sealed Chicago, Burlington and Quincy car of whisky, gin, beer, champagne, coffee and other things. Johnson is said to have been intoxicated when he was led into the trouble. Bland attempted to escape and made a determined fight with the officers, two shots being fired into him before he could use his own weapon. The arrests have caused a sensation.

Cured Hemorrhages of the Lungs.

"Several years since my lungs were so badly affected that I had many hemorrhages," writes A. M. Ake of Wood, Ind. "I took treatment with several physicians without any benefit. I then started to take Foley's Honey and Tar, and my lungs are now as sound as a bullet. I recommend it in advanced stages of lung trouble." Foley's Honey and Tar stops the cough and heals the lungs, and prevents serious results from a cold. Refuse substitutes. J. W. McCollum & Co.

Bailey Goes to Grave.

New York, April 13.—James Bailey died at his home in Mount Vernon Wednesday from erysipelas. He was 59 years of age. Mr. Bailey's name is familiar throughout America and Europe as a showman and in his later years he was managing director of the Barnum and Bailey show. Practically his whole life was spent in the circus business as employe and proprietor. He joined P. T. Barnum in 1881 and since that time most of the big circuses of the country have been consolidated with him as director.

Ballard's Horehound Syrup

Immediately relieves hoarse, croupy coughs; oppressed, rattling, rasping and difficult breathing. Henry C. Stearns, Druggist, Shullsburg, Wis., writes May 20, 1902: "I have been selling Ballard's Horehound Syrup for two years, and have never had a preparation that has given better satisfaction. I notice that when I sell a bottle they come back for more. I can honestly recommend it." 25c, 50c and $1. Sold by W. M. Johnson.

17 TUNNELS ARE ON THIS ROAD

Remarkable Engineering on the New North Carolina Railway.

Raleigh, N. C., April 13.—The surveying corps of the South and Western railway is now in the counties of Rutherford and McDowell, locating the route, and there will be some remarkable engineering. The road is now under construction from the coal fields of West Virginia and Kentucky, and three thousand laborers, in fourteen camps, are at work between Spruce Pine in Mitchell county and a point near Marion in McDowell county.

It will require five tunnels to get the road through the Blue Ridge mountains, the longest of these being a half mile.

A great amount of the best machinery is being used on the 17 tunnels which wil be on the line.

There will not be a trestle on the line.

The road will, after crossing the Seaboard Air Line at Rutherford, the present western terminus of that system in North Carolina, go on to Spartanburg, or Clinton, N. C.

The coast of the construction in the Blue Rridge, section will be some $200,000 a mile. It is stated by the chief engineer that in fifteen months the road can be completed to Spartanburg.

The Richest Man in the World

The richest man in the world cannot have his kidneys replaced nor live without them, so it is important not to neglect these organs. If Foley's Kidney Cure is taken at the first sign of danger the symptoms will disappear and your health will be restored, as it strengthens and builds up these organs as nothing else will. Oscar Bowman, Lebannon, Ky., writes: "I have used Foley's Kidney Cure and take great pleasure in stating it cured me permanently of kidney disease, which certainly would have cost me my life." J. W. McCollum & Co.

Quattenstein Stirs Jelks.

Montgomery, Ala., April 12.—It having been reported to Governor Jelks that a German colony at Riverfield needed help, he called up President Rider, of Big mills there. Mr. Rider said that they were brought there for work in turpentine forests and did not like the service; they refused work at the said mills for $1.25 a day. The governor will try to get them more satisfactorily located. Attention was called to the situation by the German consul at Atlanta.

The Original.

Foley & Co., Chicago, originated Honey and Tar as a throat and lung remedy, and on account of the great merit and popularity of Foley's Honey and Tar many imitations are offered for the genuine. These worthless imitations have similar sounding names. Beware of them. The genuine Foley's Honey and Tar is in a yellow package. Ask for it and refuse any substitute. It is the best remedy for coughs and colds. J. W. McCollum & Co.

Dowie Upsets Plans.

Chicago, April 13.—John Alexander Dowie Thursday upset the plans for a peaceable adjustment of his troubles with Zion church, as announced Wednesday night. He directed his attendants to announce to all inquirers that the report that he was about to compromise with Overseer Volliva and his followers was untrue. He said that he would conduct a legal contest in the courts and get his property back.

A Dandy For Burns.

Dr. Bergin, Pana, Ill., writes: "I have used Ballard's Snow Liniment; always recommend it to my friends, as I am confident there is no better made. 'It is a dandy for burns.' Those who live on farms are especially liable to many accidental cuts, burns, bruises, which heal rapidly when Ballard's Snow Liniment is applied. It should always be kept in the house for cases of emergency." 25c, 50c and $1. Sold by W. M. Johnson.

Inspecting "Short Line."

Delaware, O., April 13.—President Johnson and a car of the Norfolk and Western officials passed through this city Thursday on an inspection tour of the "short line from Columbus to Sandusky," owned by the Pennsylvania people. It is reported here that the officials are contemplating purchasing the line, but President Johnson declined to talk of the rumor.

Cures Coughs and Colds.

Mrs. C. Peterson, 625 Lake St., Topeka, Kans., says: "Of all cough remedies Ballard's Horehound Syrup is my favorite. It has done, and will do all that is claimed for it—to speedily cure all coughs and colds—and is so sweet and pleasant to the taste." Sold by W. M. Johnson.

Human Blood Marks.

A tale of horror was told by marks of human blood in the home of J. W. Williams, a well known merchant of Bac, Ky. He writes: "Twenty years ago I had severe hemorrhages of the lungs, and was near death when I began taking Dr. King's New Discovery. It completely cured me and I have remained well ever since." It cures hemorrhages, chronic coughs, settled colds and bronchitis, and is the only known cure for weak lungs. Every bottle guaranteed by all druggists. 50c and $1. Trial bottle free.

SHUTTING OUT THE SEA.

The Massive Sea Wall That Stretches Around Galveston.

Stretching around the eastern limits and continuing entirely along the southern side of Galveston is its massive sea wall, standing as an impregnable defense and an insurmountable barrier against even the greatest storm ever known to have occurred in the gulf, says a writer in Marine Review. This wall symbolizes in its firm construction on a solid foundation not only the absolute future safety of the city, but also that unwavering confidence and unshaken belief of Galvestonians in this location as the supreme harbor of the star empire and the gateway for the vast and limitless resources of the great southwest. The city sea wall was begun Oct. 27, 1902, and the work was completed July 29, 1904, having been carried to a successful conclusion in three months less than the contracted time, which, considering the magnitude of the undertaking, is noteworthy. As an extension of the sea wall around the city of Galveston, the United States government appropriated $591,000 to build about one mile more of wall along the beach in front of Fort Crockett and the federal reserve adjoining the city on the west. The total length of the sea wall is about four and a half miles. It is sixteen feet wide at base, curving to five feet in width at the top, being seventeen feet above mean low tide and one foot higher than in the 1900 storm.

NATURE'S HOUSE CLEANING.

Rainy Season In Caracas the City's Sanitary Salvation.

Just what Caracas would do without its rainy season I cannot imagine, for the city is far from being clean and sanitary. Garbage is thrown into the yards for the vultures to feed upon, dust and papers accumulate in the streets, and the visitor is about to pronounce the city the dirtiest he has ever seen when nature suddenly decides to put things to rights. An ordinary rainfall would not suffice now. A thorough flushing is needed, and nothing short of a deluge will do it.

But somewhere up in the mountain tops the deluge is forming, and presently a great black vapor overspreads the valley. It comes slowly at first, as if to warn the people to go indoors, but when it has acquired sufficient density it falls. In a moment almost the streets and courtyards are flooded, the fantastic waterspouts that overhang the sidewalks pour out their streams like gigantic kettle spouts, and loud is the noise of the splashing and splattering.

Half an hour later one tiptoes along the shiny pavements, as if over a newly scrubbed floor. Above him is a sky of spotless blue, while the only clouds to be seen are insignificant patches of white along the mountain sides. Yet in an incredibly short space of time the whole process may be repeated.—George M. L. Brown in St. Nicholas.

HEALTH IS YOUTH.

Disease and Sickness Bring Old Age.

Herbine, taken every morning before breakfast, will keep you in robust health; fit you to ward off disease. It cures constipation, biliousness, dyspepsia, fever, skin, liver and kidney complaints. It purifies the blood and clears the complexion. Mrs. D. W. Smith, Whitney, Texas, writes April 8, 1902: "I have used Herbine, and find it the best medicine for constipation and liver troubles. It does all you claim for it. I can highly recommend it." 50c. sold by W. M. Johnson.

Royal
Baking Powder
Absolutely Pure

Made from Pure Grape Cream of Tartar

In baking powder Royal is the standard, the powder of highest reputation; found by the United States Government tests of greatest strength and purity.

It renders the food more healthful and palatable and is most economical in practical use.

Housekeepers are sometimes importuned to buy alum powders because they are "cheap." Yet some of the cheapest made powders are sold to consumers at the highest price.

Housekeepers should stop and think. Is it not better to buy the Royal and take no chances—the powder whose goodness and honesty are never questioned?

Is it economy to spoil your digestion by an alum-phosphate or other adulterated powder to save a few pennies?
